NEW POWER SWITCH INVENTED

CONTROLS SEVERAL POWER CIRCUITS -- Trybuna Ludu, No 252, 13 Sep 49

Engineer Jerzy Topolski and master foreman Aleksander Mickiewicz have invented a new switch system for controlling several power circuits. Heretofore, only switches of German construction were used, which required individual switches for every circuit. The new switch, which controls a number of circuits simultaneously, can be used for grain elevators, railroads, etc. The problem of transforming circular motion into perpendicular, on the principle of the vector resultant of forces, has also been solved.

AUGUST POWER PRODUCTION -- Trybuna Ludu, No 249, 10 Sep 49

Public-utility power plants throughout the country, under the Central Power Administration, produced 107.2 percent of the plan for August.

Power production in August reached 392,287 kilowatt-hours.

GAS OUTPUT INCREASES -- Rzeczpospolita, No 254, 14 Aug 49

The 175 gasworks controlled by the Central Power Administration produced in August 24,341 cubic meters of gas, 35,452 tons of coke, and 2,208,639 kilograms of tar. These figures show that, compared to the July production, gas production increased by 300,000 cubic meters, coke production by 700 tons, and tar by 120,000 kilograms.
